- 5 Liriope spicata 'Silver Dragon'
- 6 Lomandra longifolia 'Breeze'
- 7 Ocularia deltoides
- 8 Pittosporum tobira
- 9 Scabiosa caucasica 'Butterfly Blue'

You can have a drought-tolerant garden and still enjoy the ambience of fountain surrounded by lush plantings. Chose a special place near an entry or patio where the gentle sound of falling water will mask background noise and conversations.

In our dry climate, birds and insects need sources of fresh water.

A fountain with a recirculating pump keeps the water moving and prevents mosquitos from breeding.

California native plant
